NOTE: Kits marked * require some kitbashing skills.

BLACK BEETLE DRIVE BOGIES HO/OO, EM, P4, On3, S and O GAUGE

- Powered by Mashima 1220 or 1224 flat can motor. Wheelbases from 25.5mm to 40mm in steps of 0.25mm.
- Wheelbases from 25.5mm to 29.5mm use the Mashima 1220 motor. Speed at 12V is approximately 3 scale miles per hour per scale inch of wheel diameter with 15:1 gearing.
- Wheelbases from 29.75 to 40mm use the Mashima 1224 motor. Speed at 12V is approximately 2 scale miles per hour per scale inch of wheel diameter with 15:1 gearing.
- Gear ratio of 27:1 is also available where slower speeds are required. Minimum wheelbase is also reduced with 27:1 gearing down to 23.75mm.
- Height of centre pivot above rail is 12.4mm plus half the wheel diameter. eg. with 10.5mm wheels the centre pivot is approximately 17.6mm above the rail level.
- All have flush axles as standard. HO gauge uses 25mm long axles, EM and P4 use 26mm and On3 uses 28mm axles.
- A bracket is included to which side frames may be fixed. (NOTE: side frames are not included)
- Wheel options:
 - 9.6mm disc and 8 spoke
 - 10.5mm disc and 10 spoke
 - 11.08mm 9 spoke
 - 11.6mm disc
 - 12.0mm disc
 - 12.25mm disc and 12 spoke
 - 14.0mm disc

All sizes are available in RP25 - 110 and RP25 - 88 profile. Disc wheels in 12mm and 14mm diameter are also available in P4.

Price for custom assembled Black Beetle with 15:1 gearing 85.00

Price for custom assembled Black Beetle with 27:1 gearing 110.00

When ordering please specify wheelbase, wheel diameter, disc or spoked, wheel profile, track gauge and gear ratio.

Price for custom assembled Dummy Beetle 25.00

Includes pick - ups, but no motor or gears.

BLACK BUG DRIVE UNIT

The Black Bug is a compact single axle drive unit using the same gearbox as the Black Beetle and a Mashima 1220 motor. Gearing may be either the standard 15:1, as fitted to the Black Beetle, or a second set of spur gears can be provided to increase the overall gear reduction to 27:1. Wheel choices are the same as the Black Beetle, or the Black Bug can be provided without wheels. Axles are 2.00mm in diameter. Electrical pickups are not included.

Custom assembled Black Bug with standard 15:1 gearing. \$60.00

When ordering please specify wheel diameter, disc or spoked, wheel profile and track gauge.

Custom assembled Black Bug with 27:1 gearing. \$67.50

10L	7.6mm (26")	8 Spoke	HOn3	10.40

NOTES ON AXLE LENGTHS**23.8mm axles** are commonly used on HO scale models where it is desired to keep width over axleboxes to a minimum eg. finescale standard gauge models.**25.0mm axles** are used in S.E.M. 4 wheel wagon kits, bogies B1-B8 and B11 and bogies by A./R. kit Co. This length also suits LIMA and Powerline.**26.0mm axles** are used in most U.S. and British models such as Athearn, Roundhouse, Hornby and Bachman Branchlines.
